AN ABUNDANCE OF ACTIVITY!

HERITAGE MONEY ON ITS WAY!

We are delighted to announce that the initiative *Rusland Horizons: Working a Lakeland Landscape* has been successful in its first-stage bid to the Heritage Lottery Fund's (HLF) Landscape Partnership Scheme. The project aims to provide rural training, employment and create exciting opportunities for residents and visitors in woodland management, wildlife, archaeology, local history and low-impact recreation, among other things.

The project will cover the area between Coniston Water and Windermere (lake), from Grizedale southwards. The award is worth £68,500 in the development year and, if completed successfully, will lead to a further £1.35M for the four-year delivery phase. Money has also been given by the Sir John Fisher Foundation.

The bid has been put together over three years by the Rusland Valley & Fells Heritage Partnership. This is an informal, voluntary group which was set up following public meetings in 2010. It comprises a mix of people who live and work in the community, as well as representatives of Government agencies and other countryside organisations. For financial and administrative reasons, the group is delighted that the LDNPA has agreed to be the lead partner.

The success of the application is due in no small part to the extensive support we received from local groups and organisations; many thanks to all of you who submitted letters of support.

Once the initial excitement has died down, the Steering Group will reconvene and a Development Officer will be recruited. We think there will be lots of opportunities for members of the local community to become involved and these will be advertised widely. We hope there will be something for everyone and look forward to sharing information in future newsletters.

Colin Barr & Giles Wingate-Saul (Chair and Vice-Chair, Steering Group).
